Product Information

PROFIX SL/CF 10W-30 10W-40

The PROFIX SL/CF series is oil for high-performance gasoline engines which cleared standard API SL of API(American Petroleum Institute).

It is oil having superior thermal stability, oxidation stability and rust-preventing characteristics by the effective combination of mineral oil and additive.

Approvals

API SL

Characteristics (Typical Figures)

| SAE Grade | J 1 | 10W-30 | 10W-40 |
|------------------------|--------------------|--------------|--------------|
| Viscosity at 100℃ | mm ² /s | 10.3 | 13.4 |
| Viscosity at 40℃ | mm^2/s | 66.3 | 85.7 |
| Viscosity at | mPa.s | 6,000(-25°C) | 5,800(-25°C) |
| Viscosity Index | - | 142 | 158 |
| Flash Point COC | ${\mathcal C}$ | 230 | 230 |
| Density at 15℃ | g/cm ³ | 0.878 | 0.875 |

PROPERTIES AND PERFORMANCE OF PROFIX SL/CF PRODUCT

- O This oil shows superior thermal stability and oxidation stability by the effective combination with mineral oil and an additive and draws engine performance.
- This oil prevents the engine inside from abrasion by the effective combination of the additive and draws rust prevention performance.
